Nikki,

I am sending you the inquiry below because the constituents felt that tomorrow's New Year celebration (at their house) was going to be an issue with traffic caused by cones and traffic cops diverting traffic from the Griffith Observatory. They live in the Oaks and traffic has been an issue already, but with the holidays even worse at Ferndell and Los Feliz. I am having issues logging onto OMS, so this is not in the system.

Sylvie - this is my area, not Nikki's. What exactly did the constituents want? Adam, can you handle?

Just got done talking to constituent's wife. Apparently there is a lot of traffic direction that is going on in the LF Blvd area when it comes to the observatory (directing people to the observatory) and these folks are wondering: 1) in general, what's going on and 2) whether the guests to their New Years party will be able to get to their place.

She was very thoughtful and patient about the whole thing and I told her I'd contact her with more information tomorrow. (I imagine the traffic control measures are due to tourism of some sort; I'll check with Joe).

Yes - the observatory and Griffith park in general gets extremely overloaded during the holidays (much like what our friends in Beachwood and Lake Hollywood are experiencing). Don't know if there is something at the observatory in particular for NYE.

Ha ha, you're on vacation Missy ♡♡ they want traffic to be more accessible for people, especially residents and are concerned that the road won't be accessible for their guests tomorrow
